Roulette

The Roulette implemented on the multigame "Dracula's Games" offers the same betting possibilities as a French Live Roulette.

The Main Screen shows the classic layout of a roulette table, with a single 0.

The bets can be played in a fast mode if the TURBO option is selected.

The bets can be repeated simply by choosing the button REPEAT.

You can erase all bets made at the game table by selecting the option "ERASE ALL" or you can choose to erase the betted chips one by one, by selecting "ERASE CHIPS".

All obtained winnings can be doubled or quadrupled by a maximum of 5 times if you select the option "GAMBLE".

The bets can be automatically played by selecting the "AUTO" option.

The Secondary Screen shows the Last Winning Numbers.
